Charlene completed a beautiful poster for me in such a short time. Everything we discussed she was able to bring together in a cohesive and inspired piece of art. It means a lot to have a personalized piece of work to hang on my classroom walls, as so much is cliché today. Words have power, and with Charlene's touch, they come to life. Thank you!!!

I recently had the privilege of working with [Charlene Stinson](#) to re brand my business. Charlene is incredibly talented not only in her graphic design skills but also in her ability to draw out exactly what her client is looking for. I came to Charlene not knowing what I was really looking for but I had an idea of what I wanted to portray and how I wanted my brand to make people feel. Charlene worked very quickly and put together multiple designs ideas, one of which stood out and turned into exactly what I was hoping for. She is truly wonderful to work with and her strong foundation in her design knowledge paired with her natural talent and eye for style make her an excellent choice for any design project. I highly recommend Charlene Stinson of CS Graphic Artist for any graphic design need. Thank you so much for the beautiful work you have created for me and my business.

I had been searching for months for the perfect wall art to hang above my bed! Anything I liked was the wrong colour; anything the right colour, I didn't like!!! Then I thought of CS Graphic Artist! Charlene took time to find out what I wanted and liked; listened to my questions and my opinions; gave me several options and made sure I was happy with the result! And, she got the job done so quickly! I highly recommend that you turn to CS Graphic Design for anything you are looking for - you are sure to find a perfect solution here! Next time I'm looking for something I won't be searching everywhere else first!!
